

# Stamped Concrete Accent COLOR CHART

Charcoal

Dark Walnut

Chocolate

Sand Buff

Maplewood

Terra Cotta

Gray

Smoke

**These accent colors are used as a secondary color for new poured stamped concrete. This color you will see in the grooves and low areas in the stamp design. Typically we use a color darker than the integral base color, such as Dark Walnut, Charcoal, etc.**

**Note:** All colors shown are intended to show the approximate color of finish, choices, and ranges. **DO NOT** use this chart as a final selection, for colors are affected by site conditions and installation procedure. Making a final selection from job specific samples made in the field is recommended.
